INVITATION TO BID

The North Fork John Day Watershed Council (hereinafter called COUNCIL) is seeking the rental services of two (2) tracked excavators equipped with hydraulic thumb attachment (includes one (1) smaller bucket), sized between 25,000 - 55,000 pounds GVW (Equivalent sized excavators: John Deere 120D = 28,840 lbs, John Deere 200D = 47,969 lbs.), with qualified operators, capable of hauling large rock/boulders from rock barbs, and berm material and one (1) wheeled grapple skidder, capable of relocating trees 40 feet in length and 21 inches DBH, with root wads attached to wood structure locations. Winching or cabling capability to pull trees with rootwads off slopes. This work will occur on Beaver and Ruby Creeks, two tributaries to the Middle Fork John Day River, in July/August 2022, unless Industrial Fire Prevention Levels (IFPL) delay the work to the fall.

- Excavator tasks will consist of tipping live conifers over with the rootwad attached, picking up and moving previously felled trees or previously tipped trees with rootwad attached, removal of and re-distribution of previously installed log sills and rock barbs from the stream and construction of new large woody debris structures using the locally removed/transported coarse and large trees in the stream or placement of woody material on adjacent floodplain. Excavator will also install posts at designated sites on side channels, floodplains, and stream banks to lock in woody material (streambank bioengineering). Sedge mats that are salvaged will be placed on berm removal/recontour areas to narrow main stream channel within designated areas associated with berm removal.
- Wheeled grapple skidder would be utilized to move whole trees tipped within the RHCA (300 ft on either side of the creek) of Ruby and Beaver Creeks up and down the floodplain to stage at flagged wood structures and floodplain areas before and during the instream work window. Specific areas for potential tree harvest are within the RHCA on Ruby and Beaver Creeks. Multiple trees may be hauled at once and broken tops/slash shall be piled for grapple skidder to move. Large trees may have the top sawn off and tops skidded separately for limbs to remain intact.
- Up to two pre-implementation on-site meetings may be required to provide information to CONTRACTOR and machine operators.
- CONTRACTOR will be responsible for contacting Oregon Utility Notification Center at 811 prior to implementation.
- CONTRACTOR will work with minimal impact on stream, riparian, and associated uplands.
- CONTRACTOR will take down and put up livestock fences as necessary.
- A fire prevention/control plan will be required from the CONTRACTOR when/if IFPL is a 3 or 4.
- A Hazardous Material Spill Plan will be required from CONTRACTOR prior to mobilization.

The project is located on Ruby and Beaver Creeks, all tributaries to the Middle Fork John Day River in Grant County. In-stream or work dependent on in-stream work and associated work must be performed during the designated in-stream work period between **July 15 and August 15, 2022** with written notice to proceed from North Fork John Day Watershed Council (COUNCIL).

A *mandatory* pre-bid site tour will take place on **May 12th at 9am**. We will meet at the dispersed camp spot along Ruby Creek, just off the Middle Fork road, ~.5 miles downstream of Forest Service rd 2050 (Davis Cr West Trailhead) and upstream of the Confederated Tribes of the Warm Springs informational kiosk (see attached map). Bidders must RSVP via email to info@nfjdw.org or phone (541) 421-3018 by **May 11th**.

Individual bids will be received from qualified contractors by the COUNCIL at 691 Hwy 395 N (PO Box 444), Long Creek, OR 97856 until **May 26, 2022 at 4pm**.

As stipulated in the instructions to bidders, individual sealed envelopes and emails containing bids and supporting materials shall be marked **Butte, Ruby, Beaver Creek Restoration II**.

Bids received after the established deadline may not be considered.

When a Contract is awarded at an amount lower than the funding available to support the Scope of Work, bidders acknowledge that the COUNCIL may increase CONTRACTOR services and contract compensation for additional services supporting the original Scope of Work.

The COUNCIL may reject any bid not in compliance with all prescribed bidding procedures and requirements, and reserves the right to reject for good cause any or all bids in whole or in part upon the finding of the COUNCIL that it is in the interest of the COUNCIL to do so, to waive irregularities not affecting substantial rights, and to postpone the award of the work as necessary for a period of time not to extend beyond thirty (30) days from the bid opening date. Bid prices quoted shall remain firm for a period of forty-five (45) days from the date of bid opening.

CONTRACTOR shall comply with the requirements of the Oregon prevailing wage rates under ORS 279C.800 to 279C.870 or federal Davis-Bacon prevailing wages, whichever is higher.
