

Landowner Interest Form

The North Fork John Day Watershed Council is working with local landowners to bring in funding and hands-on help for stream, riparian, and fire recovery work. This form is meant to gauge landowner interest and help the NFJWC understand local priorities.

Completing this form does not commit you to any project or guarantee funding. All projects depend on available funding, landowner interest, and partner capacity.

Section 1: Contact Information

Your name or family/operation/ranch name:				
Phone Number:		Email:		
Best way to reach you?	<input type="checkbox"/> Phone	<input type="checkbox"/> Email	<input type="checkbox"/> Text	<input type="checkbox"/> Mail
Where is your property located?				

Section 2: Your Priorities & Concerns

Check all that apply:

Water & Land Management	Vegetation & Habitat
<input type="checkbox"/> Water for livestock	<input type="checkbox"/> Juniper removal
<input type="checkbox"/> Preventing erosion / stabilizing streambanks	<input type="checkbox"/> Pre-commercial thinning
<input type="checkbox"/> Improving pasture health or forage	<input type="checkbox"/> Managing dead standing timber
<input type="checkbox"/> Fixing or installing fences	<input type="checkbox"/> Controlling invasive weeds
<input type="checkbox"/> Improving roads or stream crossings	<input type="checkbox"/> Improving wildlife habitat
Fire Recovery and Preparedness	
<input type="checkbox"/> Repairing damage from the 2024 fire	<input type="checkbox"/> Wildfire resiliency and preparedness
Other priorities, goals, or concerns:	

Section 3: Interest in On-the-Ground Project Support

Check any areas where you’d like to explore restoration opportunities, or you’re interested in technical assistance or support:

Stream & Riparian Work	Upland Work
<input type="checkbox"/> Stabilizing eroding streambanks	<input type="checkbox"/> Juniper removal
<input type="checkbox"/> Improving fish and wildlife habitat along streams	<input type="checkbox"/> Noxious weed treatment
<input type="checkbox"/> Planting willows or shrubs for shade and erosion control	<input type="checkbox"/> Seeding native grasses and wildflowers
<input type="checkbox"/> Improving stream crossings or access roads	<input type="checkbox"/> Fuels management
<input type="checkbox"/> Repairing or moving fences to protect streams while allowing grazing	<input type="checkbox"/> Wildfire resiliency
<input type="checkbox"/> Replanting riparian areas affected by fire or grazing	<input type="checkbox"/> Developing off-channel water or springs
<input type="checkbox"/> Replacing culverts to improve fish passage	<input type="checkbox"/> Resource protection (aspen or other sensitive habitats, wet meadows, springs, etc)
<input type="checkbox"/> Other:	<input type="checkbox"/> Other:
Post-Wildfire Recovery (2024 Battle Mountain Complex)	
<input type="checkbox"/> Removing hazard trees or debris	
<input type="checkbox"/> Reseeding or replanting burned areas	
<input type="checkbox"/> Erosion control	
<input type="checkbox"/> Protecting recovering areas from overuse	
Other restoration opportunities:	

Section 4: Next Steps

Would you be open to a short field visit or phone call to discuss areas of interest?

- ☐ Yes
- ☐ Maybe
- ☐ Not at this time
